Cameron is a founding director of m3p&e. He has over 21 years experience and has worked with some of the top firms in Australia including insurance brokers, real estate companies and accounting practices.

He has worked extensively overseas completing valuations throughout Asia and Europe and has experience in all areas of asset valuation and asset register services.

Cameron has developed a reputation within the Australian valuation industry as an expert in data cleansing and asset register reconstruction and reconciliation. He is able to provide a seamless transition between historic and current data which supports due diligence considerations in M&A transactions, as well as tax and financial reporting obligations.

In recent years he has done extensive valuation work for insurance, M&A, taxation, financial reporting, finance security, corporate restructuring, asset management and disposal, asset register construction, reconstruction and reconciliation.
